Instructional Resource Alert

June 2018

[U of M Health System - Speech and Language Delays/Disorders](http://earlyoncenter.org/resource.php?ID=285)

(<http://earlyoncenter.org/resource.php?ID=285>)

University of Michigan Health System - This site includes information about milestones, disorders, causes, late bloomers, stuttering, and parenting tips for language development.

[Why Interactions Matter - Video](http://earlyoncenter.org/resource.php?ID=286) (<http://earlyoncenter.org/resource.php?ID=286>)

In this 5-minute video, The Hanen Centre's Executive Director, Elaine Weitzman, talks about what the most recent research says about the power of high-quality interactions, and describes the critical ingredients that make these interactions possible.

[It's Almost Never Apraxia: Understanding Appropriate Diagnosis of Speech in Early Intervention - Webinar](http://earlyoncenter.org/resource.php?ID=287) (<http://earlyoncenter.org/resource.php?ID=287>)

Archived webinar from VA's Integrated Training Collaborative, Partnership for People with Disabilities Talk on Tuesday Webinar presented by Corey H. Cassidy. This webinar will review typical development of speech sounds and phonological patterns in infants and toddlers. The differences between articulation and phonological delays/disorders, apraxia of speech, and organic speech disorders, as well as what to expect in regard to differential diagnosis of these disorders with children under the age of three years will be presented. Strategies to facilitate natural speech sound development within everyday activities and routines will be discussed. Visit the 2015 Talks on Tuesdays Archive and scroll down until you find the webinar.

[Strategies for Working with Children with Torticollis](http://earlyoncenter.org/resource.php?ID=288)

(<http://earlyoncenter.org/resource.php?ID=288>)

This article, by EI Strategies for Success Blog, highlights strategies for stretching an infant with torticollis and how to incorporate strategies for stretching into the family's daily routines. Video examples are also available in this article.

[Typical Motor Development 0-12 Months - Archived Webinar](http://earlyoncenter.org/resource.php?ID=289)

(<http://earlyoncenter.org/resource.php?ID=289>)

Archived webinar from VA's Integrated Training Collaborative, Partnership for People with Disabilities Talk on Tuesday webinar presented by Missy Rose. This webinar describes typical motor development in the first year, red flags, and intervention strategies to encourage motor development. Visit the 2012 Talks on Tuesdays Archive and scroll down until you find the webinar.
