Early On Center Instructional Resource Alert

Now Available Under Instructional Resources

[How Brains Are Built: The Core Story of Brain Development](http://earlyoncenter.org/resource.php?ID=123)

(<http://earlyoncenter.org/resource.php?ID=123>)

The Alberta Family Wellness Initiative created a video that focuses on the core story of brain development. Positive experiences children have help shape the structure of the developing brain. These positive experiences are tied to good mental function and better overall health.

[Building Brain Architecture: Training Module](http://earlyoncenter.org/resource.php?ID=124)

(<http://earlyoncenter.org/resource.php?ID=124>)

The Center on the Developing Child at Harvard University features a 30 minute online training module. This module provides a basic overview of how early child and brain development happens, how it can be derailed and supported, and what effects early development can have on lifetime health and learning.

Brain Development - ZERO TO THREE

(<http://earlyoncenter.org/resource.php?ID=125>)

ZERO TO THREE features an interactive **baby brain map** that allows the user to select a certain age range and highlight different areas of the brain to reveal the secrets of how early care enriches development. You will find useful tips and tools on brain development such as an interactive brain quiz, common questions about brain development in the early years and much more.

Brain Research and Early Childhood Development: A Selection of Online Resources

(<http://earlyoncenter.org/resource.php?ID=126>)

Research on young children's early brain development has underscored its importance for later development. This minibibliography from the NECTAC Clearinghouse on Early Intervention & Early Childhood Special Education, includes a selection of online resources that discuss some the latest developments in this field and related educational policy issues.
