Early On Center Instructional Resource Alert

Now Available Under Instructional Resources

[Autism: Awareness, Reform and Education - Michigan](http://earlyoncenter.org/resource.php?ID=187)

(<http://earlyoncenter.org/resource.php?ID=187>)

The Michigan Department of Health and Human Services (MDHHS) established the Michigan Autism Program in 2013 as part of the Behavioral Health and Developmental Disabilities Administration. This website provides free resources and training information for parents and providers, including a provider guide for referral of young children.

[Early Identification of Autism Spectrum Disorder Module](http://earlyoncenter.org/resource.php?ID=184)

(<http://earlyoncenter.org/resource.php?ID=184>)

This online module of the ASD toddler initiative is a project of Frank Porter Graham Child Development Institute at University of North Carolina at Chapel Hill. This module includes a pre and post assessment quiz, case study, characteristics of ASD in young children, observation, screen, and diagnosis for early identification of ASD, and additional resources on early identification.

AFIRM – Autism Focused Intervention Resources and Modules

(<http://earlyoncenter.org/resource.php?ID=185>)

The National Professional Development Center on Autism Spectrum Disorder (ASD) has identified (AFIRM) online modules and resources for each of the 27 evidence-based practices. AFIRM Modules are designed to help you learn the step-by-step process of planning for, using, and monitoring an EBP with learners with ASD from birth to 22 years of age. Supplemental materials and handouts are available for download.

Autism Spectrum Disorder: An Overview for Educators - Module

(<http://earlyoncenter.org/resource.php?ID=186>)

The IRIS Center online module provides information on the early signs of autism spectrum disorder (ASD), as well as an overview of the difference between a medical diagnosis and an educational determination of ASD. Each module includes case examples that demonstrate the practice in use, a multimedia presentation of content with audio and video clips, and interactive assessments.
