Early On Center Instructional Resource Alert

Now Available Under Instructional Resources

Early Brain Development Resources - Vroom

(<http://earlyoncenter.org/resource.php?ID=173>)

Learn about the science of early brain development, explore creative tools and materials that inspire families to turn everyday moments into brain building moments through videos and Vroom's everyday app.

Executive Function – Skills for Life, Learning and Health - Module

(<http://earlyoncenter.org/resource.php?ID=174>)

Early Childhood Health Optimization, a project by Florida State University Center for Prevention and Early Intervention Policy, created 4 Online Modules in the series Building Brain Architecture: The Foundations of Lifelong learning, Health, and Achievement. This is the 3rd learning module of the series. Tips on how to use the module and resources are included.

[Developmental Foundations of School Readiness for Infants and Toddlers: A Research to Practice Report](http://earlyoncenter.org/resource.php?ID=175)

(<http://earlyoncenter.org/resource.php?ID=175>)

This report by Dr. Diane M. Horm (2016) summarizes research about development during the first three years in order to highlight areas that are foundational for later school readiness and success. This information can be used as a guide by programs to inform their practices and policies and to help programs think about their own theories of change or strategies for continuous improvement and what outcomes they are most focused on improving for young children.

[Learning Happens Video Series](http://earlyoncenter.org/resource.php?ID=176)

(<http://earlyoncenter.org/resource.php?ID=176>)

Zero To Three's "Learning Happens Video Series" features 30 video vignettes that show parents and children, birth to 3 years, interacting during every day play and routines.
